

## Harvey Now Making Parts For DC-9 Jet

Large structural aluminum extrusions are now being made by Harvey Aluminum Co. for the deHavilland Aircraft Co. of Canada. The Canadian firm uses the extrusions as spar caps for the Douglas DC-9.

A contract was recently signed by Douglas Aircraft Co. for deHavilland to help develop and produce major components of the DC-9 "compact jet." DeHavilland contracted with Harvey for the parts now being shipped to Canada.

The extrusions are being manufactured at the Torrance facility of Harvey and shipped to Canada for use in the wings and fuselage sections being made by deHavilland.

The DC-9 medium-range jet transport is being readied for test flights in March, 1965. It is expected to carry up to 83 passengers at speeds up to 555 miles per hour.

## Carson-Avalon Intersection Project Slated

Funds for the improvement of the intersection of Carson Street and Avalon Boulevard have been allocated by the County Road Department. The project will get underway as soon as a telephone company project at the intersection is completed.

A paved curb island, new pavement, and a section of curb and gutter will be included in the project.

## College Group Plans Added Performances

Three more performances of "The Pursuit of Happiness" are planned by the drama department at Long Beach State College. The additional showings were arranged after sell-out crowds attended the performance last evening.

The summer theater group will go on stage with the production tonight, tomorrow, and Saturday at 8:30 p.m. These three performances will conclude the current summer program at Long Beach State.

## Law in Action

"We settled our case out of court," you may hear.

Today's lawyers and their clients have changed in the last 50 years. Long ago a trial over a few dollars could pull in a crowd for miles around and keep tongues wagging for weeks, even years.

TODAY with movies, the automobile, and TV and radio, to say nothing of widespread newspaper coverage, most legal contests seem to have lost the old popular appeal. The standing-room-only trials are now comparatively rare. Few attend trials unless they are dramatic.

Lawyers, their clients, and courts know full well that in all lawsuits one party loses. And so, many litigants make concession rather than risk loss.

COURTS encourage settlements which seem to satisfy most litigants and certainly save tax money and court time. Indeed the Canons of Ethics of the American Bar Assn. declare the desirability of amicable settlements rather than prolonged lawsuits.

Much recent court reform has helped this trend along. In pretrial hearings in both the federal and California courts the judge sits down with the lawyers on both sides to see how far they can go to agree on the facts. In this process they often also arrive at mutual agreeable settlements.

FURTHER, both sides in most lawsuits can demand to examine much of the evidence that in the old days would come out only in formal hearings. This evidence includes facts of medical examinations and lists of witnesses. The witnesses can be called in before the trial and questioned. This again saves trial time and more often than not leads to out-of-court settlements.

Nearly 95 per cent of personal injury cases which arise in automobile accident cases in California are negotiated outside of court.

Note: California lawyers offer this column so you may know about our laws.

## Riviera Club Sets Meeting

Members of the Hollywood Riviera Senior Citizen's Club will hold their monthly meeting Friday at 71 Retiro Park. The meeting will begin at 1 p.m.

During the afternoon the club will mark the birthdays of four of its members and award prizes for the winners of recent bridge and checker tournaments. There will also be a white elephant sale.

Plans are also being made

for a trip to Shrine Auditorium on Aug. 16. Information about the trip may be obtained by calling Mrs. Norma Price at FR 5-4597.

Are you eating more and exercising less? The result is likely to be an excess flab (his) and bulges where there should be curves (hers). Keep your weight in check all year round, the Los Angeles County Heart Assn. cautions.

## 223rd Street Plans Approved

Plans and specifications for the improvement of 223rd Street between Vermont Avenue and Figueroa Street have been approved. Bids for the project will be opened Aug. 7. The project will include widening of the street, installation of curbs, gutters, and sidewalks, and improvement of drainage facilities. The over-all improvements

## Torrance Marks Reportable Ills

Six reportable diseases were recorded for the city of Torrance by the Los Angeles County Health Department for the week ending July 20. Reported was one case each of encephalitis, epilepsy, gonorrhea, measles, salmonellosis, and syphilis.

will provide a multi-lane highway with left-turn channelization.

## Great Books Group Meets

The summer meeting of the Torrance Great Books Discussion Group was held at the home of Mr. and Mrs. Tom E. Witt, 408 Via La Selva, July 25.

The group spent the evening discussing the political satire "Voice of the Dolphins" by Leo Szilard. Dr. Donald Salk of Torrance was moderator for the evening.

## Children Set For Camping

Two more youngsters will leave next week for a two-week stay at one of the camps for handicapped children in Los Angeles County. The camps are operated by the Crippled Children's Society.

Edmund Smart, 10, of 20523 1/2 S. Vermont Ave., will be at the Joan Miller Camp. Walter Myerscough, 26357

Hillcrest Ave., Lomita, will go to Paivaka Camp.

Some foods may be seasonal but well-balanced meals should not be. Proper nutrition is important summer and winter too. Eat a variety of foods in just the amounts you need, the Los Angeles County Heart Assn. urges.

# 2,000,000 LB. BEEF SALE!

**Roasts 33¢ lb.**
